Philosophy and Values
Athletics is an extension of the classroom, and an important part of the Jefferson County educational program.

Participation in a sound athletic program contributes to good sportsmanship, character, physical development, coordination, and a wholesome interest in sports.

Interscholastic sports competition exemplifies the value of the democratic process and of fair play. Through participation, the student athlete learns how to work with others for the achievement of group goals. Participation in interscholastic sports is a living laboratory of equal opportunity in action where all students are treated without favor or prejudice.

The program of interscholastic sports is an integral part of the education program. It shall, above all else, foster the growth and well being of the individual student.

Good sportsmanship practices have life-long values. The athlete who acts fairly, who observes laws and customs, who treats others with consideration, and who takes adversity without whimpering earns respect. Students in today’s schools are tomorrow’s community citizens and, as adults, will demonstrate some of the attitudes they are now learning.

The Jefferson County School District is well aware of the importance of the athletics and activities programs, but it recognizes that they should never overshadow the emphasis placed on classroom work. Schools are strongly urged to maximize student-teacher classroom contact by minimizing the loss of school time involved in extra-curricular activities.

Benefits of Participation
The secret is that athletics and activities are not just a way to have fun or be with friends; they serve as valuable educational tools. From interscholastic sports to music, drama and debate, athletics and activities enrich a student’s school experience.

Athletics and activities support the academic mission of schools. They are not a diversion but rather an extension of a good educational program. Students who participate in activities and athletic programs tend to have higher grade point averages, better attendance records, lower dropout rates and fewer discipline problems.

As the state’s second largest school district, Jefferson County has a rich history in athletics dating back to 1921 for boys, winning 127 state championships; and 1974 for girls, winning 94 state championships. At the high school level, 26 varsity sports are offered to girls and boys.

Athletics and activities are inherently educational. Athletics and activities programs provide valuable lessons in many practical situations -- teamwork, sportsmanship, winning, losing, and hard work. Through participation in athletics and activities programs, students learn self-discipline, build self-confidence and develop skills to handle competitive situations. These are qualities the public expects schools to produce in students so that they become responsible adults.
and productive citizens. It is often said that high school athletics and activities are a microcosm of life.

Athletics and activities foster success in later life. Participation in high school athletics and activities is often a predictor of later success -- in college, a career and becoming a contributing member of society.

**General Athletics Participation**

♦ The safety of athletics is a number one priority. Participants must be aware that other athletes' physical safety is extremely important and avoid any type of aggressive action, which could lead to injury to another participant. Participants are also responsible to avoid any activity, which could lead to injury when not being supervised by an assigned faculty member or coach.

♦ Each girl and boy is encouraged to participate in as many different sports during each school year as possible. The students and their parents should determine the choice of sports.

♦ Students are expected to report for sports at the beginning of each sport season as established by the Colorado High School Activities Association and Jefferson County Schools.

♦ Team members of all sports are required to attend all scheduled practices and meetings during the established sports season. If circumstances arise whereby the student cannot attend a practice or meeting, the validity of the reason will be adjudged by the individual coach. In all cases, however, the coach must be notified, prior to the practice or meeting missed, by personal contact, phone call, or written statement from the parent or guardian. As a part of the maturing process, student-athletes are encouraged to make these contacts with the coach.

♦ If an athlete is eliminated from one sport, he/she is eligible to participate in another sport during that season at the discretion of the coaches. An athlete faced with this situation would be encouraged to go out for another sport unless eliminated because of disciplinary reasons or eligibility infractions.

♦ Any student may drop out of a sport if it is done in the proper way. First, the student must make the reasons known to the coach. Secondly, the athlete must return all equipment and clear all financial responsibility with the school.

♦ It is expected that athletes will attend a full and normal class schedule on the day of the event. Exceptions to this rule would be an excused absence or a family emergency.

**Participation Contract**

1. The use (lighting, chewing, smoking, inhaling, vaporizing, ingesting, injecting or application) or possession of drug paraphernalia, alcohol or any product that contains or is derived from tobacco, nicotine or steroids and is intended to be ingested, inhaled or applied to the skin of an individual will not be tolerated, regardless of quantity. The following represent minimum sanctions for violation of this rule, and shall be served at the first possible contest following the infraction. In cases of greater severity, the responsible administrator may increase the sanction up to and including suspension from school and from all interscholastic participation. Observance of all training rules involving the use or possession of tobacco,
alcohol, or drug paraphernalia, drugs, including steroids, is a responsibility of the participant.

- The first violation for sports with 11 or fewer contests will be a one contest suspension and for sports with more than 11 contests, the sanction will be a two-contest suspension.

- A second violation occurring at any time during a student’s attendance in the Jefferson County Schools will result in a suspension from twice as many contests as are provided for the first violation. Where drugs, tobacco or alcohol are involved in both violations, the student must demonstrate evidence of participation in an alcohol or drug treatment program prior to returning to competition.

- A third and any subsequent violation occurring at any time during a student’s attendance in the Jefferson County Schools will result in suspension from all interscholastic athletics for one full year from the occurrence date.

2. Students must also meet the following behavior expectations. Violation of these expectations may result in game suspensions, code of conduct penalties, and/or removal from the team at the discretion of school administration.
   - Participants are expected to conduct themselves in a commendable manner at all times in the school, the classroom, during interscholastic activities, and toward opponents, officials and spectators. The use of profane language is not acceptable and will not be tolerated.

   - **There will be “zero tolerance” for assault upon, hazing, disorderly conduct toward, harassment of, intimidation of, discrimination against, or any criminal offense against another student or damage of property of another student.**

   - Any behavior, on or off school property, which is detrimental to the welfare or safety of others will not be permitted.

3. Students who violate this participation contract out of season, including summer months, are subject to disciplinary action at the beginning of the next competitive season for any sport in which they participate. This contract is in effect from the signing date until the student officially graduates or transfers to another school outside the District.

Participants who violate this contract may be required to attend all practices, if not suspended from school. I am aware and I will abide by the guidelines in the CHSAA Competitors’ Brochure located on the athletics web page or CHSAAnow.com. I affirm my responsibility in preventing and reporting any bullying or hazing, as described in the Brochure. Students and parents are responsible for reading and understanding the Jeffco Athlete Handbook. Refer to Board Policy and Procedure JICH/JICH-R, JBC, JBB and JKDA/JKEA, and the Student Conduct Code Book.

**Misconduct - Penalties**

- Any athlete participating in an athletic event who flagrantly violates the rules of good sportsmanship should be removed from the game immediately by the coach regardless of the action taken by the game officials. The school administrators of the two schools involved
and the District Director of Athletics have the responsibility to determine if further disciplinary measures are warranted.

♦ Any player who has been disqualified from a match or contest for committing any unsportsmanlike act shall be disqualified for the remainder of that match or contest. In addition, the player shall be ineligible for the next regularly scheduled match or contest of the same level (sophomore, junior varsity or varsity). The number of matches, meets or contests for which the participant has been declared ineligible will decrease the stated maximum allowable matches, meets or contests in each sport for the disqualified participant. If such ejection occurs in the final match or contest of the season, then that player shall be ineligible for the first match or contest of the next season of sport that player elects to play. In satisfying the penalty the player must sit out a game in a sport in which he/she competes for the entire season.

♦ Any player ejected from a second match or contest during the same season shall be ineligible for the next two matches or contests of the same level.

♦ Any player ejected from a third match or contest during the same season shall be subject to a penalty determined by the Commissioner.

♦ These represent minimum sanctions for violation of this rule. In cases of greater severity, the responsible administrator may increase the sanction up to and including suspension from all interscholastic participation.

♦ The athlete may not take part in any other games or contests at any level during the suspension time.

♦ Any athlete who has been disqualified for unsportsmanlike behavior or because he/she is ineligible may not dress out or sit on the team bench during the period of suspension.

**Pre-sport Participation**
(The following items must be on file before an athlete may begin practice or be issued equipment.)

♦ To register for Athletic Participation, students must sign up by registering at each athlete’s high school athletic registration site.

♦ Signed Jefferson County Participation Contract. *All ninth graders must have a physical upon entering high school. A student in grades 10-12 must have a physical exam within the past 365 calendar days.*

♦ Signed Athletic Emergency Card done through the Online Registration process.

♦ Athletic Fee paid in full: $175 for each sport. Only those students who discontinue the program within 15 calendar days after reporting are eligible for reimbursement. (Revenue from athletic fees is deposited to the Jefferson County School District general fund.)

**Dual Sport Participation**
A student may participate in two sports during the same season provided the parents, coaches and school athletic director approve. Requirements for dual participation include the following:
A meeting will be held with the athlete, parents, coaches and athletic director prior to the first contest.

The athlete must choose a primary sport. All parties will sign a written agreement, which includes specific information regarding practices and priority of contests during the regular and post seasons.

The athlete must pay a fee for each sport.

Each student competing in an interscholastic sports program must have had a minimum practice period of five days in his/her sport(s) (exclusive of Sundays) before representing his/her school in an interscholastic contest or scrimmage. A student must have a minimum of nine days of practice in football. (Receiving school must have written verification on file if transfer of schools is involved.)

If a conflict arises, the school athletic director will intervene and make a determination, which will be binding.

**General Appearance and Conduct**

- All athletes should set and keep a high standard of appearance at all times.
- Athletes should demonstrate positive leadership toward the conduct of the students in the school and in the community.

**Season Dates**

- The Jefferson County Activities Association and the Colorado High School Activities Association govern opening and closing dates for interscholastic sports. Starting dates for all sports are as follows:

  Fall sports starting date will be Monday, August 8, 2022.

  Winter sports starting date will be Monday, November 14, 2022.

  Spring sports starting date will be Monday, February 27, 2023

The sport season ends for a member of a high school athletic team on the day following the completion of his or her school’s competition at that level at which the student competes.

**Open Practice**

- Open gyms and open practice are allowed before and/or after the season.

- A coach or supervisor must be with each group in the gym and in direct contact with the athletes involved.

- A school representative must approve the use of the gym for all groups; however, the sports in season have priority use of the facility.

- A person, acting in the capacity of the high school coach or serving a role representing the high school, may have informational meetings anytime with 8th grade students who live in
that high school’s attendance area as established by the school district, or with those 8th grade student that have pre-registered to attend that high school; the coach may conduct practice with those eighth graders starting May 1. This contact may include currently registered underclassmen. The Sunday Contact rule applies to this contact. (per the CHSAA Bylaw 1900.5)

**Sports Camp Guidelines**

♦ A sports camp is defined as an instructional class limited to one sport and involving participation by the individual student. No coach or school representative may directly or by implication direct a student to attend said camp or camps as a condition to practicing, participating or otherwise influencing a student’s opportunity to participate in any school sport. A fee may or may not be charged. School sponsored camps must be pre-approved by the athletics’ director, principal and district director of athletics.

♦ Unless prohibited by the Colorado High School Activities Association (see restrictions under football in CHSAA Bylaws), school equipment may be used throughout the calendar year.

**Outside Competition**

♦ Students should be aware that different organizations have amateur rules, which are different than those of the Colorado High School Activities Association (CHSAA).

♦ Players certified to participate as members of any high school sport may compete on any other team, in any non-school activity or event in that sport during that sports season with the express written permission of the principal, which permission shall be granted if:
  • the student’s class attendance is not compromised and
  • the student is in good academic standing under the school’s activities policy applicable to all students.

**Eligibility**

♦ The Colorado High School Activities Association sets minimum standards for athletics eligibility.

♦ Transfers: If the student is new to the school as a 10th, 11th or 12th grader then it is required that she/he meet with the school’s Athletic Director prior to participating in order to establish eligibility as a transfer student.

♦ State statutes allow for students not attending a particular high school, whose home school (charter or otherwise) does not offer athletics, or certain sports for which the student wishes to participate, to participate at a school offering such sports in the student’s district of attendance or district of residence. The student is required to meet with the participating school’s Athletic Director in order to establish eligibility at the school for which she/he wishes to participate.

♦ Although a school is governed by the state association, a school may set a more stringent eligibility requirements than set by the state.
Listed are most of the general eligibility rules as set by the CHSAA. (For a more complete explanation and additional information, see your athletics’ director.)

Participation in interscholastic athletics as a part of a school’s education program is a privilege, and not a right. Students wishing to participate are required to meet standards of personal behavior and academic performance related to school purposes. In this regard, the Colorado High School Activities Association and its member schools may exercise the fullest discretion permitted under law.

A student shall be eligible to represent his or her high school in an interscholastic activity sanctioned by the CHSAA if such student meets the following specific requirements:

- The student is a bona fide undergraduate member of his or her high school.
- In the judgement of the principal of the student’s school, he/she is a representative of the school’s ideals in matters of citizenship, conduct and sportsmanship.
- During the period of participation, the student must be enrolled in courses which offer, in aggregate, a minimum of 2.5 Carnegie units of credit per semester. At the time of participation, the student must not be failing more than the equivalent of .5 Carnegie unit of credit. For purposes of this paragraph, academic eligibility shall be determined by a periodic check (weekly, bi-weekly, monthly) of the student’s grade in progress from the beginning of the grading period for each class, as determined by the policy of the student’s school, to the close of the certification day for the interscholastic activity in question. In all cases, the periods of eligibility and ineligibility must be equal and at no time may the two groups become eligible on the same day.
- During the semester preceding the semester in which the student wishes to participate in any interscholastic activity, the student must not have failed more than the equivalent of .5 Carnegie unit of credit and must have enrolled in a minimum of 2.5 Carnegie units of credit. The number of credits failed during a semester shall be determined from the student’s school transcripts and shall include all classes taken during the semester. Fractional credits awarded or not awarded by the school shall be added at the end of each semester to determine eligibility of the succeeding semester. If, after credits are totaled, and failing credits total more than .5 credit, students will not be eligible.
- A student who drops out of school after having been enrolled and in attendance 15 days will not be eligible for the following quarter of his/her attendance. If the student attends 15 days or more during the semester, he/she must have completed the required number of credits for the whole of that semester to be eligible the next semester.

No makeup work shall be permitted after the close of the semester and/or the designated periodic eligibility check for the purpose of becoming eligible; and a “condition” shall, for purposes of determining eligibility, count as a failure. A student failing to complete work during the normal semester because of a manifest hardship (injury - illness, or other circumstances beyond his control) may be permitted, at the discretion of his/her high school principal, to make up the work within a reasonable time following the student’s recovery. A “reasonable time” in most cases would be a like number of days that the student was absent from school. Prior notification must be filed with CHSAA. Summer school or its equivalent credit accepted by the school toward graduation may be used to replace any Carnegie units or equivalent of credit failed if completed by the Monday of Week 10 on the NFHS Calendar (9/5/22) and recorded on the students’ transcript. Credits made up through summer school must be in the same curricular area and be accepted to meet graduation requirements of classes previously failed. Written notification of a student(s) regaining eligibility through summer school must be included with the first semester eligibility report.
♦ Students who have not met the academic requirements at the close of a semester may regain academic eligibility per CHSAA Bylaw 1710d.2 for first semester and Monday of Week 36 of second semester at which time the student must successfully meet the general academic eligibility in accordance with the following paragraph.

♦ During the period of participation, the student must be enrolled in courses which offer, in aggregate, a minimum of 2.5 Carnegie units of credit per semester and must not be failing more than the equivalent of .5 Carnegie unit of credit.

♦ A student who has been ineligible but now regains eligibility for the upcoming semester or designated date shall not compete in any interscholastic contest and/or scrimmage until the day following the close of the current semester. A student who has been eligible, but who now becomes ineligible for the upcoming semester, shall not compete in any interscholastic contest and/or scrimmage on the day following the close of the current semester. Note: Students who are now ineligible but will regain eligibility, and students who are now eligible but will lose eligibility, may never be eligible on the same day.

**General Lettering and Awards Guidelines**
